

Think Measles

- 1** If measles symptoms are suspected, patients should **isolate and not attend any setting in person**, including A&E and GPs.
- 2** Patients should **call their GP practice** who will screen and triage over the phone, or make arrangements for treatment.
- 3** Any spaces where someone with suspected measles was should be **thoroughly cleaned** before being used.
- 4** If anyone is **unsure of their immunity status**, they should speak to their GP practice.
- 5** **Anyone of any age can get a catch up MMR vaccine** for free via their GP practice.
